Sociology (#2108300)

Version: 2026 - And Beyond

You are not viewing the current course, please click the current year's tab.

Course Version Note

Updated course description.

Course Standards

Visit the specific benchmark webpage to find related instructional resources.

- [SS.912.S.1.1](#): Discuss the development of the field of sociology as a social science.
- [SS.912.S.1.2](#): Identify early leading theorists within social science.
- [SS.912.S.1.3](#): Compare sociology with other social science disciplines.
- [SS.912.S.1.4](#): Examine changing points of view of social issues such as poverty, crime, and discrimination.
- [SS.912.S.1.5](#): Evaluate various types of sociologic research methods.
- [SS.912.S.1.6](#): Distinguish fact from opinion in data sources to analyze various points of view about a social issue.
- [SS.912.S.1.7](#): Determine cause-and-effect relationship issues among events as they relate to sociology.
- [SS.912.S.1.8](#): Identify, evaluate, and use appropriate reference materials and technology to interpret information about cultural life in the United States and other world cultures, both in the past and today.

- [SS.912.S.1.9](#): Develop a working definition of sociology that has personal application.
- [SS.912.S.2.1](#): Define the key components of a culture such as knowledge, language and communication, customs, values, norms, and physical objects.
- [SS.912.S.2.2](#): Explain the differences between a culture and a society.
- [SS.912.S.2.3](#): Recognize the influences of genetic inheritance and culture on human behavior.
- [SS.912.S.2.4](#): Give examples of subcultures and describe what makes them unique.
- [SS.912.S.2.5](#): Compare social norms among various subcultures.
- [SS.912.S.2.6](#): Identify the factors that promote cultural diversity within the United States.
- [SS.912.S.2.7](#): Explain how various practices of the culture create differences within group behavior.
- [SS.912.S.2.8](#): Compare and contrast different types of societies, such as hunting and gathering, agrarian, industrial, and post-industrial.
- [SS.912.S.2.9](#): Prepare original written and oral reports and presentations on specific events, people, or historical eras.
- [SS.912.S.2.10](#): Identify both rights and responsibilities the individual has to the group.
- [SS.912.S.2.11](#): Demonstrate democratic approaches to managing disagreements and resolving conflicts within a culture.
- [SS.912.S.2.12](#): Compare and contrast ideas about citizenship and cultural participation from the past with those of the present community.
- [SS.912.S.3.1](#): Describe how social status affects social order.
- [SS.912.S.3.2](#): Explain how roles and role expectations can lead to role conflict.
- [SS.912.S.3.3](#): Examine and analyze various points of view relating to historical and current events.
- [SS.912.S.4.1](#): Describe how individuals are affected by the different social groups to which they belong.
- [SS.912.S.4.2](#): Identify major characteristics of social groups familiar to the students.
- [SS.912.S.4.3](#): Examine the way that groups function, such as roles, interactions and leadership.

- [SS.912.S.4.4:](#) Discuss the social norms of at least two groups to which the student belongs.
- [SS.912.S.4.5:](#) Analyze what can occur when the rules of behavior are broken and analyze the possible consequences for unacceptable behavior.
- [SS.912.S.4.6:](#) Identify the various types of norms (e.g., folkways, mores, laws, taboos) and explain why these rules of behavior are considered important to society.
- [SS.912.S.4.7:](#) Discuss the concept of deviance and how society discourages deviant behavior using social control.
- [SS.912.S.4.8:](#) Explain how students are members of primary and secondary groups and how those group memberships influence students' behavior.
- [SS.912.S.4.9:](#) Discuss how formal organizations influence behavior of their members.
- [SS.912.S.4.10:](#) Distinguish the degree of assimilation that ethnic, cultural, and social groups achieve with the United States culture.
- [SS.912.S.4.11:](#) Discuss how humans interact in a variety of social settings.
- [SS.912.S.4.12:](#) Determine the cultural patterns of behavior within such social groups as rural versus urban or rich versus poor.
- [SS.912.S.4.13:](#) Investigate and compare the ideas about citizenship and cultural participation of social groups from the past with those of the present community.
- [SS.912.S.5.1:](#) Identify basic social institutions and explain their impact on individuals, groups, and organizations within society and how they transmit the values of society.
- [SS.912.S.5.2:](#) Discuss the concept of political power and factors that influence political power.
- [SS.912.S.5.3:](#) Discuss how societies recognize rites of passage.
- [SS.912.S.5.4:](#) Investigate stereotypes of the various United States subcultures, such as "American Indian," "American cowboys," teenagers, "Americans," "gangs" and "hippies," from a world perspective.
- [SS.912.S.5.5:](#) Define ethnocentrism and explain how it can be beneficial or destructive to a culture.
- [SS.912.S.5.6:](#) Identify the factors that influence change in social norms over time.

- [SS.912.S.5.7](#): Use various resources to interpret information about cultural life in the United States and other world cultures, both in the past and today.
- [SS.912.S.5.8](#): Analyze the primary and secondary groups common to different age groups in society.
- [SS.912.S.5.9](#): Conduct research and analysis on an issue associated with social structure or social institutions.
- [SS.912.S.5.10](#): Identify both rights and responsibilities the individual has to primary and secondary groups.
- [SS.912.S.5.11](#): Demonstrate democratic approaches to managing disagreements and solving conflicts within a social institution.
- [SS.912.S.5.12](#): Explain how roles and role expectations can lead to role conflict.
- [SS.912.S.6.1](#): Describe how and why societies change over time.
- [SS.912.S.6.2](#): Examine various social influences that can lead to immediate and long-term changes.
- [SS.912.S.6.3](#): Describe how collective behavior can influence and change society.
- [SS.912.S.6.4](#): Examine how technological innovations and scientific discoveries have influenced major social institutions.
- [SS.912.S.6.5](#): Discuss how social interactions and culture could be affected in the future due to innovations in science, and technological change.
- [SS.912.S.6.6](#): Describe how the role of the mass media has changed over time and project what changes might occur in the future.
- [SS.912.S.6.7](#): Distinguish major differences between social movements and collective behavior with examples from history and the contemporary world.
- [SS.912.S.6.8](#): Investigate the consequences in society as a result of changes.
- [SS.912.S.6.9](#): Trace the development of the use of a specific type of technology in the community.
- [SS.912.S.6.10](#): Propose a plan to improve a social structure, and design the means needed to implement the change.
- [SS.912.S.6.11](#): Cite examples of the use of technology in social research.
- [SS.912.S.6.12](#): Evaluate a current issue that has resulted from scientific discoveries and/or technological innovations.

- [SS.912.S.7.1](#): Identify characteristics of a “social” problem, as opposed to an “individual” problem.
- [SS.912.S.7.2](#): Describe how social problems have changed over time.
- [SS.912.S.7.3](#): Explain how patterns of behavior are found with certain social problems.
- [SS.912.S.7.4](#): Discuss the implications of social problems for society.
- [SS.912.S.7.5](#): Examine how individual and group responses are often associated with social problems.
- [SS.912.S.7.6](#): Evaluate possible solutions to resolving social problems and the consequences that might result from those solutions.
- [SS.912.S.7.7](#): Survey local agencies involved in addressing social problems to determine the extent of the problems in the local community.
- [SS.912.S.7.8](#): Design and carry out school- and community-based projects to address a local aspect of a social problem.
- [SS.912.S.8.1](#): Describe traditions, roles, and expectations necessary for a community to continue.
- [SS.912.S.8.2](#): Describe how collective behavior (working in groups) can influence and change society. Use historical and contemporary examples to define collective behavior.
- [SS.912.S.8.3](#): Discuss theories that attempt to explain collective behavior.
- [SS.912.S.8.4](#): Define a social issue to be analyzed.
- [SS.912.S.8.5](#): Examine factors that could lead to the breakdown and disruption of an existing community.
- [SS.912.S.8.6](#): Discuss the impact of leaders of different social movements.
- [SS.912.S.8.7](#): Define propaganda and discuss the methods of propaganda used to influence social behavior.
- [SS.912.S.8.8](#): Discuss both the benefits and social costs of collective behavior in society.
- [SS.912.S.8.9](#): Identify a community social problem and discuss appropriate actions to address the problem.
- [SS.912.S.8.10](#): Investigate how incorrect communications, such as rumors or gossip, can influence group behavior.

- **MA.K12.MTR.1.1: Actively participate in effortful learning both individually and collectively.**

Mathematicians who participate in effortful learning both individually and with others:

- Analyze the problem in a way that makes sense given the task.
- Ask questions that will help with solving the task.
- Build perseverance by modifying methods as needed while solving a challenging task.
- Stay engaged and maintain a positive mindset when working to solve tasks.
- Help and support each other when attempting a new method or approach.

Clarifications:

Teachers who encourage students to participate actively in effortful learning both individually and with others:

- Cultivate a community of growth mindset learners.
- Foster perseverance in students by choosing tasks that are challenging.
- Develop students' ability to analyze and problem solve.
- Recognize students' effort when solving challenging problems.

- **MA.K12.MTR.2.1: Demonstrate understanding by representing problems in multiple ways.**

Mathematicians who demonstrate understanding by representing problems in multiple ways:

- Build understanding through modeling and using manipulatives.
- Represent solutions to problems in multiple ways using objects, drawings, tables, graphs and equations.
- Progress from modeling problems with objects and drawings to using algorithms and equations.
- Express connections between concepts and representations.

- Choose a representation based on the given context or purpose.

Clarifications:

Teachers who encourage students to demonstrate understanding by representing problems in multiple ways:

- Help students make connections between concepts and representations.
- Provide opportunities for students to use manipulatives when investigating concepts.
- Guide students from concrete to pictorial to abstract representations as understanding progresses.
- Show students that various representations can have different purposes and can be useful in different situations.

• **MA.K12.MTR.3.1: Complete tasks with mathematical fluency.**

Mathematicians who complete tasks with mathematical fluency:

- Select efficient and appropriate methods for solving problems within the given context.
- Maintain flexibility and accuracy while performing procedures and mental calculations.
- Complete tasks accurately and with confidence.
- Adapt procedures to apply them to a new context.
- Use feedback to improve efficiency when performing calculations.

Clarifications:

Teachers who encourage students to complete tasks with mathematical fluency:

- Provide students with the flexibility to solve problems by selecting a procedure that allows them to solve efficiently and accurately.
- Offer multiple opportunities for students to practice efficient and generalizable methods.
- Provide opportunities for students to reflect on the method they used and determine if a more efficient method could have been used.

• **MA.K12.MTR.4.1: Engage in discussions that reflect on the mathematical thinking of self and others.**

Mathematicians who engage in discussions that reflect on the mathematical thinking of self and others:

- Communicate mathematical ideas, vocabulary and methods effectively.
- Analyze the mathematical thinking of others.
- Compare the efficiency of a method to those expressed by others.
- Recognize errors and suggest how to correctly solve the task.
- Justify results by explaining methods and processes.
- Construct possible arguments based on evidence.

Clarifications:

Teachers who encourage students to engage in discussions that reflect on the mathematical thinking of self and others:

- Establish a culture in which students ask questions of the teacher and their peers, and error is an opportunity for learning.
- Create opportunities for students to discuss their thinking with peers.
- Select, sequence and present student work to advance and deepen understanding of correct and increasingly efficient methods.
- Develop students' ability to justify methods and compare their responses to the responses of their peers.

• **MA.K12.MTR.5.1: Use patterns and structure to help understand and connect mathematical concepts.**

Mathematicians who use patterns and structure to help understand and connect mathematical concepts:

- Focus on relevant details within a problem.
- Create plans and procedures to logically order events, steps or ideas to solve problems.
- Decompose a complex problem into manageable parts.
- Relate previously learned concepts to new concepts.
- Look for similarities among problems.
- Connect solutions of problems to more complicated large-scale situations.

Clarifications:

Teachers who encourage students to use patterns and structure to help understand and connect mathematical concepts:

- Help students recognize the patterns in the world around them and connect these patterns to mathematical concepts.
- Support students to develop generalizations based on the similarities found among problems.
- Provide opportunities for students to create plans and procedures to solve problems.
- Develop students' ability to construct relationships between their current understanding and more sophisticated ways of thinking.

- **MA.K12.MTR.6.1: Assess the reasonableness of solutions.**

Mathematicians who assess the reasonableness of solutions:

- Estimate to discover possible solutions.
- Use benchmark quantities to determine if a solution makes sense.
- Check calculations when solving problems.
- Verify possible solutions by explaining the methods used.
- Evaluate results based on the given context.

Clarifications:

Teachers who encourage students to assess the reasonableness of solutions:

- Have students estimate or predict solutions prior to solving.
- Prompt students to continually ask, "Does this solution make sense? How do you know?"
- Reinforce that students check their work as they progress within and after a task.
- Strengthen students' ability to verify solutions through justifications.

- **MA.K12.MTR.7.1: Apply mathematics to real-world contexts.**

Mathematicians who apply mathematics to real-world contexts:

- Connect mathematical concepts to everyday experiences.
- Use models and methods to understand, represent and solve problems.

- Perform investigations to gather data or determine if a method is appropriate.
- Redesign models and methods to improve accuracy or efficiency.

Clarifications:

Teachers who encourage students to apply mathematics to real-world contexts:

- Provide opportunities for students to create models, both concrete and abstract, and perform investigations.
 - Challenge students to question the accuracy of their models and methods.
 - Support students as they validate conclusions by comparing them to the given situation.
 - Indicate how various concepts can be applied to other disciplines.
- [ELA.K12.EE.1.1](#): Cite evidence to explain and justify reasoning.

Clarifications:

K-1 Students include textual evidence in their oral communication with guidance and support from adults. The evidence can consist of details from the text without naming the text. During 1st grade, students learn how to incorporate the evidence in their writing.

2-3 Students include relevant textual evidence in their written and oral communication. Students should name the text when they refer to it. In 3rd grade, students should use a combination of direct and indirect citations.

4-5 Students continue with previous skills and reference comments made by speakers and peers. Students cite texts that they've directly quoted, paraphrased, or used for information. When writing, students will use the form of citation dictated by the instructor or the style guide referenced by the instructor.

6-8 Students continue with previous skills and use a style guide to create a proper citation.

9-12 Students continue with previous skills and should be aware of existing style guides and the ways in which they differ.

- [ELA.K12.EE.2.1](#): Read and comprehend grade-level complex texts proficiently.

Clarifications:

See [Text Complexity](#) for grade-level complexity bands and a text complexity rubric.

- [ELA.K12.EE.3.1](#): Make inferences to support comprehension.

Clarifications:

Students will make inferences before the words infer or inference are introduced. Kindergarten students will answer questions like “Why is the girl smiling?” or make predictions about what will happen based on the title page. Students will use the terms and apply them in 2nd grade and beyond.

- [ELA.K12.EE.4.1](#): Use appropriate collaborative techniques and active listening skills when engaging in discussions in a variety of situations.

Clarifications:

In kindergarten, students learn to listen to one another respectfully.

In grades 1-2, students build upon these skills by justifying what they are thinking. For example: “I think _____ because _____.” The collaborative conversations are becoming academic conversations.

In grades 3-12, students engage in academic conversations discussing claims and justifying their reasoning, refining and applying skills. Students build on ideas, propel the conversation, and support claims and counterclaims with evidence.

- [ELA.K12.EE.5.1](#): Use the accepted rules governing a specific format to create quality work.

Clarifications:

Students will incorporate skills learned into work products to produce quality work. For students to incorporate these skills appropriately, they must receive instruction. A 3rd grade student creating a poster board display must have instruction in how to effectively present information to do quality work.

- [ELA.K12.EE.6.1](#): Use appropriate voice and tone when speaking or writing.

Clarifications:

In kindergarten and 1st grade, students learn the difference between formal and informal language. For example, the way we talk to our friends differs from the way we speak to adults. In 2nd

grade and beyond, students practice appropriate social and academic language to discuss texts.

- [ELD.K12.ELL.SI.1](#): English language learners communicate for social and instructional purposes within the school setting.
- [ELD.K12.ELL.SS.1](#): English language learners communicate information, ideas and concepts necessary for academic success in the content area of Social Studies.

Course Information

General Notes

Required Instruction:

[Section 1003.42, Florida Statutes](#), outlines the topics that must be taught in Florida's public schools as part of required instruction. The Florida Department of Education supports districts in fulfilling these requirements through guidance, resources and tools to ensure students receive instruction that promotes civic responsibility, character development, historical understanding and digital safety.

Through the study of sociology, students acquire an understanding of group interaction and its impact on individuals in order that they may have a greater awareness of the beliefs, values and behavior patterns of others. In an increasingly interdependent world, students need to recognize how group behavior affects both the individual and society.

Content should include, but is not limited to:

- The origins and development of sociology including the major early theorists and perspectives that shaped the field
- The key components of culture (language, values, customs), subcultures, cultural diversity, norms and traditions and how they shape human behavior and social identity
- How individuals interact within social groups, the roles they play, and how institutions like family, education, religion and government influence societal values.
- The investigation of contemporary and historical social issues (poverty, discrimination, deviance) to understand their root causes and evaluate societal responses
- The utilization of sociological research methods to analyze data, distinguish fact from fiction and develop evidence based arguments about social phenomena

- The exploration of how societies change over time, and the role that technology and the media have had in that change
- The impact of social movements and collective behavior on community development

Mathematics Thinking and Reasoning Standards (MTRs)

The MTR are built on the following premises:

- Florida's state academic standards for social studies are taught through the lens of the MTRs; the MTRs are embedded throughout every lesson;
- language of the MTRs are expectations for students to use as self-monitoring tools during instruction every day;
- ensures that students are engaged, persevere in tasks, share their thinking, balance conceptual understanding and procedures, assess their solutions and make connections to previous and extended knowledge/learning; and
- standards should not stand alone as a separate focus for instruction, but should be combined purposefully.

English Language Arts (ELA) Expectations (EEs)

- The ELA Expectations are those overarching skills that run through every component of instruction.
- These are skills that students should be using throughout the instruction of Florida's state academic standards for social studies.

For guidance on the implementation of the Ees, please visit [ELA B.E.S.T. STANDARDS: ENGLISH LANGUAGE ARTS](#). To access Mathematics Resources please visit [B.E.S.T Mathematics Resources \(fldoe.org\)](#).

English Language Development (ELDs)

- The ELDs are adopted from the World-Class Instruction Design and Assessment Consortium or WIDA.
- The standards represent the social, instructional and academic language that students need to engage with peers, educators and the curriculum in schools.

Teachers are required to provide listening, speaking, reading and writing instruction that allows English Language Learners (ELL) to communicate for social and instructional purposes within the school

setting. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills. To access an ELL supporting document which delineates performance definitions and descriptors, please click on the following link: <https://cpalmsmediaprod.blob.core.windows.net/uploads/docs/standards/eld/si.pdf>

General Information

Course Number: 2108300

Course Path: **Section:** Grades PreK to 12 Education Courses >

Grade Group: Grades 9 to 12 and Adult Education Courses >

Subject: Social Studies > **SubSubject:** Sociology >

Abbreviated Title: SOCIOLOGY

Number of Credits: Half credit (.5)

Course Length: Semester (S)

Course Type: Elective Course

Course Level: 2

Course Status: Course Approved

Grade Level(s): 9,10,11,12

Educator Certifications

One of these educator certification options is required to teach this course.

- [Sociology \(Grades 6-12\)](#)
- [Social Science \(Grades 5-9\)](#)
- [Social Science \(Grades 6-12\)](#)
- [Classical Education - Restricted \(Elementary and Secondary Grades K-12\)](#)

Section 1012.55(5), F.S., authorizes the issuance of a classical education teaching certificate, upon the request of a classical school, to any applicant who fulfills the requirements of s. 1012.56(2)(a)-(f) and (11), F.S., and Rule 6A-4.004, F.A.C. Classical schools must meet the requirements outlined in s. 1012.55(5), F.S., and be listed in the [FLDOE Master School ID](#) database, to request a restricted classical education teaching certificate on behalf of an applicant.
