The purpose of this course is to provide a foundation of knowledge and skills necessary for the development of a physically active lifestyle. The course addresses both the health and skill-based components of physical fitness, by providing a variety of movement opportunities which include but are not limited to fitness activities and team sports. This course includes content necessary for optimal development of adolescents such as resiliency education: civic and character education and life skills education as well as substance use and abuse prevention.

M/J Fitness - Grade 6 (#1508000)

Version: 2024 - And Beyond (current)

Course Standards

Visit the specific benchmark webpage to find related instructional resources.

- [PE.6.C.2.1](#): Identify at least two movements or activities which will lead to improvement in each of the health-related components of fitness.
- [PE.6.C.2.2](#): List safety procedures that should be followed when engaging in activities to improve the health-related components of fitness.
- [PE.6.C.2.3](#): Describe how each of the health-related components of fitness are improved through the application of training principles.
- [PE.6.C.2.4](#): Describe the long-term benefits of regular physical activity.

- [PE.6.C.2.5:](#) Describe the training principles of overload, progression and specificity.
- [PE.6.C.2.6:](#) Classify activities as aerobic or anaerobic.
- [PE.6.C.2.7:](#) Determine personal target heart-rate zone and explain how to adjust intensity level to stay within the desired range.
- [PE.6.C.2.8:](#) List methods of monitoring intensity level during aerobic activity.
- [PE.6.C.2.9:](#) Explain the effects of physical activity on heart rate during exercise, recovery phase and while the body is at rest.
- [PE.6.C.2.10:](#) Recognize the difference between fact and fallacy as it relates to consumer physical fitness products and programs.
- [PE.6.C.2.11:](#) Prepare a log noting the food intake, calories consumed and energy expended through physical activity and describe results.
- [PE.6.C.2.12:](#) List the components of skill-related fitness.
- [PE.6.C.2.13:](#) List appropriate warm-up and cool-down techniques and the reasons for using them.
- [PE.6.C.2.22:](#) List the three different types of heat illnesses associated with fluid loss.
- [PE.6.L.3.1:](#) Participate in moderate physical activity on a daily basis.
- [PE.6.L.3.2:](#) Participate in vigorous physical activity on a daily basis.
- [PE.6.L.3.3:](#) Participate in a variety of fitness, wellness, gymnastics and dance activities that promote the components of health-related fitness.
- [PE.6.L.3.6:](#) Identify a variety of fitness, wellness, gymnastics and dance activities that promote stress management.
- [PE.6.L.4.1:](#) Create, implement and assess a personal fitness program in collaboration with a teacher.
- [PE.6.L.4.2:](#) Develop goals and strategies for a personal physical fitness program.
- [PE.6.L.4.3:](#) Use available technology to assess, design and evaluate a personal physical-activity plan.
- [PE.6.L.4.4:](#) Develop a personal fitness program including a variety of physical activities.
- [PE.6.L.4.5:](#) Identify health-related problems associated with low levels of cardiorespiratory endurance, muscular strength, muscular endurance, flexibility and body composition.

- [PE.6.M.1.1](#): Demonstrate movements designed to improve and maintain cardiorespiratory endurance, muscular strength and endurance, flexibility and proper body composition.
- [PE.6.M.1.2](#): Perform at least three different activities that achieve target heart rate.
- [PE.6.M.1.3](#): Demonstrate the principles of training (overload, specificity and progression) and conditioning (frequency, intensity, time and type) for specific physical activities.
- [PE.6.M.1.5](#): Perform movements using a variety of equipment which lead to improved or maintained muscular strength and endurance.
- [PE.6.M.1.11](#): Apply proper warm-up and cool-down techniques.
- [PE.6.M.1.12](#): Use proper safety practices.
- [PE.6.R.5.1](#): List ways that peer pressure can be positive and negative.
- [PE.6.R.5.2](#): Demonstrate acceptance and respect for persons of diverse backgrounds and abilities in physical-activity settings.
- [PE.6.R.5.3](#): Demonstrate responsible behaviors during physical activities.
- [PE.6.R.5.4](#): Describe the personal, social and ethical behaviors that apply to specific physical activities.
- [PE.6.R.5.5](#): Demonstrate appropriate etiquette, care of equipment, respect for facilities and safe behaviors while participating in a variety of physical activities.
- [PE.6.R.6.1](#): Identify an opportunity for participation in a physical activity outside of the school setting that contributes to personal enjoyment and the attainment or maintenance of a healthy lifestyle.
- [PE.6.R.6.2](#): Identify the potential benefits of participation in a variety of physical activities.
- [HE.6.CH.3.1](#): Examine the validity of health information and determine the cost benefit of health products and services.

Clarifications:

Clarification 1: Instruction includes determining criteria function, directions for use, competence of providers, and costs.

- [HE.6.PHC.1.3](#): Examine the importance of assuming responsibility for personal reproductive health behaviors.

Clarifications:

Clarification 1: Instruction includes hygiene, physical activity, nutrition, and medical/dental checkups. *Clarification 2:* Instruction

includes resisting peer pressure and developing healthy relationships.

- [HE.6.PHC.3.4:](#) Use various methods to measure personal health status.

Clarifications:

Clarification 1: Instruction includes body composition, surveys, heart-rate monitors, pedometer, blood pressure cuff, and other clinical measurements.

Clarification 2: Instruction includes stress-management techniques, such as breathing exercises and journaling.

- [HE.68.R.2.2:](#) Demonstrate responsible decision-making that considers multiple perspectives.
- [HE.68.R.2.3:](#) Describe the importance of following school and community laws and rules.
- [HE.68.R.2.4:](#) Monitor progress toward attaining a personal goal.
- [HE.68.R.2.5:](#) Explain strategies and skills needed to assess progress and maintenance of a challenging personal goal.
- [HE.68.R.2.8:](#) Identify strategies to manage challenges and setbacks.

Clarifications:

Clarification 1: Instruction includes time management, setting boundaries, setting realistic goals, and self-care.

- [HE.68.R.2.9:](#) Identify healthy responses to negative peer pressure.
- [HE.68.R.4.1:](#) Analyze possible solutions to a problem to determine the best outcome for oneself and others.
- [HE.68.SUA.1.1:](#) Demonstrate responsible decision-making about the use of substances.

Clarifications:

Clarification 1: Instruction includes decisions related to underage alcohol consumption, illicit and illegal substance use, fentanyl and opioids, tobacco or vaping.

- [HE.68.SUA.2.1:](#) Discuss family rules, school rules and state laws about the use of alcohol and other drugs.
- [HE.68.SUA.2.2:](#) Discuss the dangers of underage consumption of alcohol and the benefits of abstaining from drinking alcohol.
- [HE.68.SUA.3.1:](#) Discuss ways to identify valid and reliable multi-media information as it pertains to alcohol and other drugs.

Clarifications:

Clarification 1: Instruction includes tobacco, marijuana/THC, prescription drugs, and illicit drugs such as fentanyl, cocaine, heroin, methamphetamines.

- [HE.68.SUA.3.2:](#) Identify how to find and access school and community resources related to alcohol misuse and/or abuse.

Clarifications:

Clarification 1: Instruction includes seeking help for self or others through school and community-based resources.

- [HE.68.SUA.4.2:](#) Predict the potential short- and long-term impacts on self and others when responding to pressure to use alcohol and/or other drugs.
- [HE.68.SUA.5.1:](#) Work cooperatively with peers to advocate for others to remain alcohol and drug free.

Clarifications:

Clarification 1: Instruction includes tobacco, vaping, marijuana/THC, prescription drugs, and illicit drugs.

- [HE.68.SUA.5.2:](#) Demonstrate ways to seek help and support from trusted adults for peers involved in unwanted, threatening or dangerous situations.
- [MA.K12.MTR.1.1:](#) **Actively participate in effortful learning both individually and collectively.**

Mathematicians who participate in effortful learning both individually and with others:

- Analyze the problem in a way that makes sense given the task.
- Ask questions that will help with solving the task.
- Build perseverance by modifying methods as needed while solving a challenging task.
- Stay engaged and maintain a positive mindset when working to solve tasks.
- Help and support each other when attempting a new method or approach.

Clarifications:

Teachers who encourage students to participate actively in effortful learning both individually and with others:

- Cultivate a community of growth mindset learners.
- Foster perseverance in students by choosing tasks that are challenging.
- Develop students' ability to analyze and problem solve.
- Recognize students' effort when solving challenging problems.

- **MA.K12.MTR.2.1: Demonstrate understanding by representing problems in multiple ways.**

Mathematicians who demonstrate understanding by representing problems in multiple ways:

- Build understanding through modeling and using manipulatives.
- Represent solutions to problems in multiple ways using objects, drawings, tables, graphs and equations.
- Progress from modeling problems with objects and drawings to using algorithms and equations.
- Express connections between concepts and representations.
- Choose a representation based on the given context or purpose.

Clarifications:

Teachers who encourage students to demonstrate understanding by representing problems in multiple ways:

- Help students make connections between concepts and representations.
- Provide opportunities for students to use manipulatives when investigating concepts.
- Guide students from concrete to pictorial to abstract representations as understanding progresses.
- Show students that various representations can have different purposes and can be useful in different situations.

- **MA.K12.MTR.3.1: Complete tasks with mathematical fluency.**

Mathematicians who complete tasks with mathematical fluency:

- Select efficient and appropriate methods for solving problems within the given context.

- Maintain flexibility and accuracy while performing procedures and mental calculations.
- Complete tasks accurately and with confidence.
- Adapt procedures to apply them to a new context.
- Use feedback to improve efficiency when performing calculations.

Clarifications:

Teachers who encourage students to complete tasks with mathematical fluency:

- Provide students with the flexibility to solve problems by selecting a procedure that allows them to solve efficiently and accurately.
- Offer multiple opportunities for students to practice efficient and generalizable methods.
- Provide opportunities for students to reflect on the method they used and determine if a more efficient method could have been used.

• **MA.K12.MTR.4.1: Engage in discussions that reflect on the mathematical thinking of self and others.**

Mathematicians who engage in discussions that reflect on the mathematical thinking of self and others:

- Communicate mathematical ideas, vocabulary and methods effectively.
- Analyze the mathematical thinking of others.
- Compare the efficiency of a method to those expressed by others.
- Recognize errors and suggest how to correctly solve the task.
- Justify results by explaining methods and processes.
- Construct possible arguments based on evidence.

Clarifications:

Teachers who encourage students to engage in discussions that reflect on the mathematical thinking of self and others:

- Establish a culture in which students ask questions of the teacher and their peers, and error is an opportunity for learning.
- Create opportunities for students to discuss their thinking with peers.

- Select, sequence and present student work to advance and deepen understanding of correct and increasingly efficient methods.
- Develop students' ability to justify methods and compare their responses to the responses of their peers.
- **MA.K12.MTR.5.1: Use patterns and structure to help understand and connect mathematical concepts.**

Mathematicians who use patterns and structure to help understand and connect mathematical concepts:

- Focus on relevant details within a problem.
- Create plans and procedures to logically order events, steps or ideas to solve problems.
- Decompose a complex problem into manageable parts.
- Relate previously learned concepts to new concepts.
- Look for similarities among problems.
- Connect solutions of problems to more complicated large-scale situations.

Clarifications:

Teachers who encourage students to use patterns and structure to help understand and connect mathematical concepts:

- Help students recognize the patterns in the world around them and connect these patterns to mathematical concepts.
- Support students to develop generalizations based on the similarities found among problems.
- Provide opportunities for students to create plans and procedures to solve problems.
- Develop students' ability to construct relationships between their current understanding and more sophisticated ways of thinking.

- **MA.K12.MTR.6.1: Assess the reasonableness of solutions.**

Mathematicians who assess the reasonableness of solutions:

- Estimate to discover possible solutions.
- Use benchmark quantities to determine if a solution makes sense.
- Check calculations when solving problems.
- Verify possible solutions by explaining the methods used.

- Evaluate results based on the given context.

Clarifications:

Teachers who encourage students to assess the reasonableness of solutions:

- Have students estimate or predict solutions prior to solving.
- Prompt students to continually ask, “Does this solution make sense? How do you know?”
- Reinforce that students check their work as they progress within and after a task.
- Strengthen students’ ability to verify solutions through justifications.

• **MA.K12.MTR.7.1: Apply mathematics to real-world contexts.**

Mathematicians who apply mathematics to real-world contexts:

- Connect mathematical concepts to everyday experiences.
- Use models and methods to understand, represent and solve problems.
- Perform investigations to gather data or determine if a method is appropriate.
- Redesign models and methods to improve accuracy or efficiency.

Clarifications:

Teachers who encourage students to apply mathematics to real-world contexts:

- Provide opportunities for students to create models, both concrete and abstract, and perform investigations.
- Challenge students to question the accuracy of their models and methods.
- Support students as they validate conclusions by comparing them to the given situation.
- Indicate how various concepts can be applied to other disciplines.

• **ELA.K12.EE.1.1: Cite evidence to explain and justify reasoning.**

Clarifications:

K-1 Students include textual evidence in their oral communication with guidance and support from adults. The evidence can consist of details from the text without naming the text. During 1st grade, students learn how to incorporate the evidence in their writing.

2-3 Students include relevant textual evidence in their written and oral communication. Students should name the text when they refer to it. In 3rd grade, students should use a combination of direct and indirect citations.

4-5 Students continue with previous skills and reference comments made by speakers and peers. Students cite texts that they've directly quoted, paraphrased, or used for information. When writing, students will use the form of citation dictated by the instructor or the style guide referenced by the instructor.

6-8 Students continue with previous skills and use a style guide to create a proper citation.

9-12 Students continue with previous skills and should be aware of existing style guides and the ways in which they differ.

- [ELA.K12.EE.2.1](#): Read and comprehend grade-level complex texts proficiently.

Clarifications:

See [Text Complexity](#) for grade-level complexity bands and a text complexity rubric.

- [ELA.K12.EE.3.1](#): Make inferences to support comprehension.

Clarifications:

Students will make inferences before the words infer or inference are introduced. Kindergarten students will answer questions like "Why is the girl smiling?" or make predictions about what will happen based on the title page. Students will use the terms and apply them in 2nd grade and beyond.

- [ELA.K12.EE.4.1](#): Use appropriate collaborative techniques and active listening skills when engaging in discussions in a variety of situations.

Clarifications:

In kindergarten, students learn to listen to one another respectfully.

In grades 1-2, students build upon these skills by justifying what they are thinking. For example: "I think _____ because _____." The collaborative conversations are becoming academic conversations.

In grades 3-12, students engage in academic conversations discussing claims and justifying their reasoning, refining and

applying skills. Students build on ideas, propel the conversation, and support claims and counterclaims with evidence.

- [ELA.K12.EE.5.1](#): Use the accepted rules governing a specific format to create quality work.

Clarifications:

Students will incorporate skills learned into work products to produce quality work. For students to incorporate these skills appropriately, they must receive instruction. A 3rd grade student creating a poster board display must have instruction in how to effectively present information to do quality work.

- [ELA.K12.EE.6.1](#): Use appropriate voice and tone when speaking or writing.

Clarifications:

In kindergarten and 1st grade, students learn the difference between formal and informal language. For example, the way we talk to our friends differs from the way we speak to adults. In 2nd grade and beyond, students practice appropriate social and academic language to discuss texts.

- [ELD.K12.ELL.SI.1](#): English language learners communicate for social and instructional purposes within the school setting.

Course Information

General Notes

Florida's Benchmarks for Excellent Student Thinking (B.E.S.T.) Standards

This course includes Florida's B.E.S.T. ELA Expectations (EE) and Mathematical Thinking and Reasoning Standards (MTRs) for students. Florida educators should intentionally embed these standards within the content and their instruction as applicable. For guidance on the implementation of the EEs and MTRs, please visit https://www.cpalms.org/Standards/BEST_Standards.aspx and select the appropriate B.E.S.T. Standards package. To access Mathematics Resources please visit [B.E.S.T Mathematics Resources \(fldoe.org\)](#).

English Language Development (ELD) Standards Special Notes Section:

Teachers are required to provide listening, speaking, reading and writing instruction that allows English Language Learners (ELL) to

communicate for social and instructional purposes within the school setting. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills. To access an ELL supporting document which delineates performance definitions and descriptors, please click on the following link:

<https://cpalmsmediaproduct.blob.core.windows.net/uploads/docs/standards/eld/si.pdf>.

General Information

Course Number: 1508000

Course Path: **Section:** Grades PreK to 12 Education Courses >

Grade Group: Grades 6 to 8 Education Courses > **Subject:**

Physical Education > **SubSubject:** General >

Abbreviated Title: M/J FITNESS GRADE 6

Course Length: Semester (S)

Course Type: Elective Course

Course Level: 2

Course Status: Course Approved

Grade Level(s): 6

Educator Certifications

One of these educator certification options is required to teach this course.

- [Classical Education - Restricted \(Elementary and Secondary Grades K-12\)](#)

Section 1012.55(5), F.S., authorizes the issuance of a classical education teaching certificate, upon the request of a classical school, to any applicant who fulfills the requirements of s. 1012.56(2)(a)-(f) and (11), F.S., and Rule 6A-4.004, F.A.C. Classical schools must meet the requirements outlined in s. 1012.55(5), F.S., and be listed in the [FLDOE Master School ID](#) database, to request a restricted classical education teaching certificate on behalf of an applicant.

Qualifications

As well as any certification requirements listed on the course description, the following qualifications may also be acceptable for the course:

Any field when certification reflects a bachelor or higher degree.

State Adopted Instructional Materials

- Middle School Fitness Jennifer Badeaux, M.Ed. - eDynamic Holdings LP - 1st - 2023
