Required Instruction:

[Section 1003.42, Florida Statutes](#), outlines the topics that must be taught in Florida's public schools as part of required instruction. The Florida Department of Education supports districts in fulfilling these requirements through guidance, resources and tools to ensure students receive instruction that promotes civic responsibility, character development, historical understanding and digital safety.

This course meets the required instruction related to:

Career and Education Planning - Per section 1003.4156, Florida Statutes, students in grades 6–8 must complete a Career and Education Planning course, taught by any instructional staff. The course must be Internet-based, customizable for each student, and include research-based assessments to help students explore education and career options. It must result in a personalized academic and career plan using Florida's online career planning system, when available. Students must learn how to access, update, and are encouraged to revise their plan annually through middle and high school. The plan must emphasize entrepreneurship, employability skills, and include information from the Department of Commerce's economic security report and other state resources. It must also cover high school graduation requirements, diploma designations, career and technical education pathways, Bright Futures scholarships, college admission requirements, opportunities for earning college credit (e.g., AP, IB, AICE, dual enrollment), work-based learning (e.g., internships, apprenticeships), and career education courses leading to industry

certification. The course may be taught as a stand-alone or integrated into other courses.

For additional information on the Middle School Career and Education Planning courses, visit: [College & Career Planning](#)

Mathematics Thinking and Reasoning Standards (MTRs)

The MTR are built on the following premises:

- Florida's state academic standards for social studies are taught through the lens of the MTRs; the MTRs are embedded throughout every lesson;
- language of the MTRs are expectations for students to use as self-monitoring tools during instruction every day;
- ensures that students are engaged, persevere in tasks, share their thinking, balance conceptual understanding and procedures, assess their solutions and make connections to previous and extended knowledge/learning; and
- standards should not stand alone as a separate focus for instruction, but should be combined purposefully.

English Language Arts (ELA) Expectations (EEs)

- The ELA Expectations are those overarching skills that run through every component of instruction.
- These are skills that students should be using throughout the instruction of Florida's state academic standards for social studies.

For guidance on the implementation of the EEs, please visit [ELA B.E.S.T. STANDARDS: ENGLISH LANGUAGE ARTS](#). To access Mathematics Resources please visit [B.E.S.T Mathematics Resources \(fldoe.org\)](#).

English Language Development (ELDs)

- The ELDs are adopted from the World-Class Instruction Design and Assessment Consortium or WIDA.
- The standards represent the social, instructional and academic language that students need to engage with peers, educators and the curriculum in schools.

Teachers are required to provide listening, speaking, reading and writing instruction that allows English Language Learners (ELL) to communicate for social and instructional purposes within the school

setting. For the given level of English language proficiency and with visual, graphic, or interactive support, students will interact with grade level words, expressions, sentences and discourse to process or produce language necessary for academic success. The ELD standard should specify a relevant content area concept or topic of study chosen by curriculum developers and teachers which maximizes an ELL's need for communication and social skills. To access an ELL supporting document which delineates performance definitions and descriptors, please click on the following link: <https://cpalmsmediaproduct.blob.core.windows.net/uploads/docs/standards/eld/si.pdf>
