<https://www.cpalms.org//PreviewCourse/Preview/24488>

Second grade students will investigate the impact of immigration over time in the United States, explore the geography of North America, and discover the foundations of American citizenship.

This content should include, but is not limited to, the following:

American History

- Historical Inquiry and Analysis
- Historical Knowledge
- Chronological Thinking

Geography

- The World in Spatial Terms

Economics

- Beginning Economics

Civics

- Foundations of Government, Law and the American Political System
- Civic and Political Participation
- Structure and Functions of Government

African American History

- Positive Influences and Contributions by African Americans

It is important to note that special attention should also be paid to the “Remarks” and “Clarifications” which provides additional

information that aids in teaching the benchmarks with fidelity and clarity.

Social Studies Grade 2

(#5021040)

Version: 2026 - And Beyond

You are not viewing the current course, please click the current year's tab.

Course Version Note

Updated course description to reflect the requirements of this course.

Course Standards

Visit the specific benchmark webpage to find related instructional resources.

- [SS.2.A.1.1](#): Examine primary and secondary sources.
- [SS.2.A.1.2](#): Utilize the media center, technology, or other informational sources to locate information that provides answers to questions about a historical topic.
- [SS.2.A.2.1](#): Recognize that Native Americans were the first inhabitants in North America.
- [SS.2.A.2.2](#): Compare the cultures of Native American tribes from various geographic regions of the United States.
- [SS.2.A.2.3](#): Describe the impact of immigrants on the Native Americans.
- [SS.2.A.2.4](#): Explore ways the daily life of people living in Colonial America changed over time.
- [SS.2.A.2.5](#): Identify reasons people came to the United States throughout history.
- [SS.2.A.2.6](#): Discuss the importance of Ellis Island and the Statue of Liberty to immigration from 1892 - 1954.
- [SS.2.A.2.7](#): Discuss why immigration continues today.

- [SS.2.A.2.8](#): Explain the cultural influences and contributions of immigrants today.
- [SS.2.A.3.1](#): Identify terms and designations of time sequence.
- [SS.2.AA.1.1](#): Identify African Americans who demonstrated civic service (i.e., Secretary of State Colin Powell, Civil Air Patrol [CAP] Lt. Willa Beatrice Brown, Carter G. Woodson, Senator Hiram Revels).
- [SS.2.AA.1.2](#): Identify oral traditions and folktales of African Americans (e.g., Anansi the Spider, Tale of the Midnight Goat Thief).
- [SS.2.CG.1.1](#): Explain why people form governments.

Clarifications:

Clarification 1: Students will explain the role of laws in government.

Clarification 2: Students will define and provide examples of laws at the state and national levels.

Clarification 3: Students will use scenarios to identify the impact of government on daily life.

- [SS.2.CG.1.2](#): Explain how the U.S. government protects the liberty and rights of American citizens.

Clarifications:

Clarification 1: Students will recognize that the equal rights of citizens are protected by the U.S. Constitution.

- [SS.2.CG.2.1](#): Explain what it means to be a U.S. citizen.

Clarifications:

Clarification 1: Students will recognize that there are multiple ways to obtain citizenship.

- [SS.2.CG.2.2](#): Describe the characteristics of responsible citizenship at the local and state levels.

Clarifications:

Clarification 1: Students will identify characteristics of responsible citizenship (e.g., peaceable assembly, obeying the law, community involvement).

Clarification 2: Students will identify characteristics of irresponsible citizenship (e.g., disorderly assembly, breaking the law).

Clarification 3: Students will describe the contributions of the diverse individuals and groups that contribute to civic life in the United States and Florida.

- [SS.2.CG.2.3:](#) Explain how citizens demonstrate patriotism.

Clarifications:

Clarification 1: Students will explain why reciting the Pledge of Allegiance daily is an act of patriotism.

Clarification 2: Students will explain the importance of recognizing patriotic holidays or observances (e.g., American Founders Month, Celebrate Freedom Week, Constitution Day, Independence Day, Martin Luther King Jr. Day, Medal of Honor Day, Memorial Day, Patriot Day, Veterans Day).

- [SS.2.CG.2.4:](#) Recognize symbols, individuals and documents that represent the United States.

Clarifications:

Clarification 1: Students will recognize the U.S. Capitol, the White House, the U.S. Supreme Court building and the Statue of Liberty as symbols that represent the United States.

Clarification 2: Students will recognize Rosa Parks and Thomas Jefferson as individuals who represent the United States.

Clarification 3: Students will recognize the Declaration of Independence as a document that represents the United States.

- [SS.2.CG.2.5:](#) Recognize symbols, individuals and documents that represent Florida.

Clarifications:

Clarification 1: Students will recognize the Florida State Capitol and the Everglades National Park as symbols of Florida.

Clarification 2: Students will recognize Andrew Jackson and Marjory Stoneman Douglas as individuals who represent Florida.

Clarification 3: Students will recognize the Florida Constitution as a document that represents Florida.

- [SS.2.CG.3.1:](#) Identify the Constitution of the United States as the supreme law of the land.

Clarifications:

Clarification 1: Students will recognize that the United States has a written constitution.

Clarification 2: Students will identify the United States as a constitutional republic.

- [SS.2.E.1.1:](#) Recognize that people make choices because of limited resources.
- [SS.2.E.1.2:](#) Recognize that people supply goods and services based on consumer demands.
- [SS.2.E.1.3:](#) Recognize that the United States trades with other nations to exchange goods and services.
- [SS.2.E.1.4:](#) Explain the personal benefits and costs involved in saving and spending.
- [SS.2.G.2.1:](#) Use different types of maps (political, physical, and thematic) to identify map elements.
- [SS.2.G.2.2:](#) Using maps and globes, locate the student's hometown, Florida, North America, and both the state and national capitals.
- [SS.2.G.2.3:](#) Label on a map or globe the continents, oceans, Equator, Prime Meridian, North, and South Poles.
- [SS.2.G.2.4:](#) Use a map to locate the countries in North America (Canada, United States, Mexico, and the Caribbean Islands).
- [MA.K12.MTR.1.1:](#) **Actively participate in effortful learning both individually and collectively.**

Mathematicians who participate in effortful learning both individually and with others:

- Analyze the problem in a way that makes sense given the task.
- Ask questions that will help with solving the task.
- Build perseverance by modifying methods as needed while solving a challenging task.
- Stay engaged and maintain a positive mindset when working to solve tasks.
- Help and support each other when attempting a new method or approach.

Clarifications:

Teachers who encourage students to participate actively in effortful learning both individually and with others:

- Cultivate a community of growth mindset learners.
- Foster perseverance in students by choosing tasks that are challenging.
- Develop students' ability to analyze and problem solve.
- Recognize students' effort when solving challenging problems.

- **MA.K12.MTR.2.1: Demonstrate understanding by representing problems in multiple ways.**

Mathematicians who demonstrate understanding by representing problems in multiple ways:

- Build understanding through modeling and using manipulatives.
- Represent solutions to problems in multiple ways using objects, drawings, tables, graphs and equations.
- Progress from modeling problems with objects and drawings to using algorithms and equations.
- Express connections between concepts and representations.
- Choose a representation based on the given context or purpose.

Clarifications:

Teachers who encourage students to demonstrate understanding by representing problems in multiple ways:

- Help students make connections between concepts and representations.
- Provide opportunities for students to use manipulatives when investigating concepts.
- Guide students from concrete to pictorial to abstract representations as understanding progresses.
- Show students that various representations can have different purposes and can be useful in different situations.

- **MA.K12.MTR.3.1: Complete tasks with mathematical fluency.**

Mathematicians who complete tasks with mathematical fluency:

- Select efficient and appropriate methods for solving problems within the given context.

- Maintain flexibility and accuracy while performing procedures and mental calculations.
- Complete tasks accurately and with confidence.
- Adapt procedures to apply them to a new context.
- Use feedback to improve efficiency when performing calculations.

Clarifications:

Teachers who encourage students to complete tasks with mathematical fluency:

- Provide students with the flexibility to solve problems by selecting a procedure that allows them to solve efficiently and accurately.
- Offer multiple opportunities for students to practice efficient and generalizable methods.
- Provide opportunities for students to reflect on the method they used and determine if a more efficient method could have been used.

• **MA.K12.MTR.4.1: Engage in discussions that reflect on the mathematical thinking of self and others.**

Mathematicians who engage in discussions that reflect on the mathematical thinking of self and others:

- Communicate mathematical ideas, vocabulary and methods effectively.
- Analyze the mathematical thinking of others.
- Compare the efficiency of a method to those expressed by others.
- Recognize errors and suggest how to correctly solve the task.
- Justify results by explaining methods and processes.
- Construct possible arguments based on evidence.

Clarifications:

Teachers who encourage students to engage in discussions that reflect on the mathematical thinking of self and others:

- Establish a culture in which students ask questions of the teacher and their peers, and error is an opportunity for learning.
- Create opportunities for students to discuss their thinking with peers.

- Select, sequence and present student work to advance and deepen understanding of correct and increasingly efficient methods.
- Develop students' ability to justify methods and compare their responses to the responses of their peers.
- **MA.K12.MTR.5.1: Use patterns and structure to help understand and connect mathematical concepts.**

Mathematicians who use patterns and structure to help understand and connect mathematical concepts:

- Focus on relevant details within a problem.
- Create plans and procedures to logically order events, steps or ideas to solve problems.
- Decompose a complex problem into manageable parts.
- Relate previously learned concepts to new concepts.
- Look for similarities among problems.
- Connect solutions of problems to more complicated large-scale situations.

Clarifications:

Teachers who encourage students to use patterns and structure to help understand and connect mathematical concepts:

- Help students recognize the patterns in the world around them and connect these patterns to mathematical concepts.
- Support students to develop generalizations based on the similarities found among problems.
- Provide opportunities for students to create plans and procedures to solve problems.
- Develop students' ability to construct relationships between their current understanding and more sophisticated ways of thinking.

- **MA.K12.MTR.6.1: Assess the reasonableness of solutions.**

Mathematicians who assess the reasonableness of solutions:

- Estimate to discover possible solutions.
- Use benchmark quantities to determine if a solution makes sense.
- Check calculations when solving problems.
- Verify possible solutions by explaining the methods used.

- Evaluate results based on the given context.

Clarifications:

Teachers who encourage students to assess the reasonableness of solutions:

- Have students estimate or predict solutions prior to solving.
- Prompt students to continually ask, “Does this solution make sense? How do you know?”
- Reinforce that students check their work as they progress within and after a task.
- Strengthen students’ ability to verify solutions through justifications.

• **MA.K12.MTR.7.1: Apply mathematics to real-world contexts.**

Mathematicians who apply mathematics to real-world contexts:

- Connect mathematical concepts to everyday experiences.
- Use models and methods to understand, represent and solve problems.
- Perform investigations to gather data or determine if a method is appropriate.
- Redesign models and methods to improve accuracy or efficiency.

Clarifications:

Teachers who encourage students to apply mathematics to real-world contexts:

- Provide opportunities for students to create models, both concrete and abstract, and perform investigations.
- Challenge students to question the accuracy of their models and methods.
- Support students as they validate conclusions by comparing them to the given situation.
- Indicate how various concepts can be applied to other disciplines.

• **ELA.K12.EE.1.1: Cite evidence to explain and justify reasoning.**

Clarifications:

K-1 Students include textual evidence in their oral communication with guidance and support from adults. The evidence can consist of details from the text without naming the text. During 1st grade, students learn how to incorporate the evidence in their writing.

2-3 Students include relevant textual evidence in their written and oral communication. Students should name the text when they refer to it. In 3rd grade, students should use a combination of direct and indirect citations.

4-5 Students continue with previous skills and reference comments made by speakers and peers. Students cite texts that they've directly quoted, paraphrased, or used for information. When writing, students will use the form of citation dictated by the instructor or the style guide referenced by the instructor.

6-8 Students continue with previous skills and use a style guide to create a proper citation.

9-12 Students continue with previous skills and should be aware of existing style guides and the ways in which they differ.

- [ELA.K12.EE.2.1](#): Read and comprehend grade-level complex texts proficiently.

Clarifications:

See [Text Complexity](#) for grade-level complexity bands and a text complexity rubric.

- [ELA.K12.EE.3.1](#): Make inferences to support comprehension.

Clarifications:

Students will make inferences before the words infer or inference are introduced. Kindergarten students will answer questions like "Why is the girl smiling?" or make predictions about what will happen based on the title page. Students will use the terms and apply them in 2nd grade and beyond.

- [ELA.K12.EE.4.1](#): Use appropriate collaborative techniques and active listening skills when engaging in discussions in a variety of situations.

Clarifications:

In kindergarten, students learn to listen to one another respectfully.

In grades 1-2, students build upon these skills by justifying what they are thinking. For example: "I think _____ because _____." The collaborative conversations are becoming academic conversations.

In grades 3-12, students engage in academic conversations discussing claims and justifying their reasoning, refining and

applying skills. Students build on ideas, propel the conversation, and support claims and counterclaims with evidence.

- [ELA.K12.EE.5.1](#): Use the accepted rules governing a specific format to create quality work.

Clarifications:

Students will incorporate skills learned into work products to produce quality work. For students to incorporate these skills appropriately, they must receive instruction. A 3rd grade student creating a poster board display must have instruction in how to effectively present information to do quality work.

- [ELA.K12.EE.6.1](#): Use appropriate voice and tone when speaking or writing.

Clarifications:

In kindergarten and 1st grade, students learn the difference between formal and informal language. For example, the way we talk to our friends differs from the way we speak to adults. In 2nd grade and beyond, students practice appropriate social and academic language to discuss texts.

- [ELD.K12.ELL.SI.1](#): English language learners communicate for social and instructional purposes within the school setting.
- [ELD.K12.ELL.SS.1](#): English language learners communicate information, ideas and concepts necessary for academic success in the content area of Social Studies.
- [HE.2.R.2.1](#): Identify ways to make positive contributions to the wellbeing of the school and the community.
- [HE.2.R.3.2](#): Identify characteristics of a community leader.

Course Information

General Notes

Required Instruction:

[Section 1003.42, Florida Statutes](#), outlines the topics that must be taught in Florida's public schools as part of required instruction. The Florida Department of Education supports districts in fulfilling these requirements through guidance, resources and tools to ensure students receive instruction that promotes civic responsibility, character development, historical understanding and digital safety.

This course satisfies statutory requirements for required instructional components:

- United States Constitution 42(2)(b)
- Elements of Civil Government 1003.42(2)(e)
- History of the United States 1003.42(2)(f)
- History of African Americans 1003.42(2)(h)

Mathematics Thinking and Reasoning Standards (MTRs)

The MTRs are built on the following premises:

- Florida's state academic standards for social studies are taught through the lens of the MTRs; the MTRs are embedded throughout every lesson;
- language of the MTRs are expectations for students to use as self-monitoring tools during instruction every day;
- ensures that students are engaged, persevere in tasks, share their thinking, balance conceptual understanding and procedures, assess their solutions and make connections to previous and extended knowledge/learning; and
- standards should not stand alone as a separate focus for instruction, but should be combined purposefully.

English Language Arts (ELA) Expectations (EEs)

- The ELA Expectations are those overarching skills that run through every component of instruction.
- These are skills that students should be using throughout the instruction of Florida's state academic standards for social studies.

For guidance on the implementation of the EEs, please visit [ELA B.E.S.T. STANDARDS: ENGLISH LANGUAGE ARTS](#). To access Mathematics Resources please visit [B.E.S.T Mathematics Resources \(fldoe.org\)](#).

English Language Development (ELDs)

- The ELDs are adopted from the World-Class Instruction Design and Assessment Consortium or WIDA.
- The standards represent the social, instructional and academic language that students need to engage with peers, educators and the curriculum in schools.

General Information

Course Number: 5021040

Course Path: **Section:** Grades PreK to 12 Education Courses >

Grade Group: Grades PreK to 5 Education Courses > **Subject:**

Social Studies > **SubSubject:** General >

Abbreviated Title: SOC STUDIES 2

Course Length: Year (Y)

Course Attributes:

- Class Size Core Required

Course Type: Core Academic Course

Course Status: Course Approved

Grade Level(s): 2

Educator Certifications

One of these educator certification options is required to teach this course.

- [Elementary Education \(Elementary Grades 1-6\)](#)
- [Social Studies \(Elementary Grades 1-6\)](#)
- [Primary Education \(K-3 - No Longer Issued\)](#)
- [Prekindergarten/Primary Education \(Age 3 through Grade 3\)](#)
- [Elementary Education \(Grades K-6\)](#)
- [Classical Education - Restricted \(Elementary and Secondary Grades K-12\)](#)

Section 1012.55(5), F.S., authorizes the issuance of a classical education teaching certificate, upon the request of a classical school, to any applicant who fulfills the requirements of s. 1012.56(2)(a)-(f) and (11), F.S., and Rule 6A-4.004, F.A.C. Classical schools must meet the requirements outlined in s. 1012.55(5), F.S., and be listed in the [FLDOE Master School ID](#) database, to request a restricted classical education teaching certificate on behalf of an applicant.
